

BOMB THREAT PROCEDURES

In the event of a bomb threat, the district shall follow the established emergency evacuation procedures when the threat is deemed valid. Student and staff will be evacuated/transported to a safe, commons area until the threat has been eliminated. The district will go into lockdown. The use of the alternating campus will be the primary location unless the threat district wide.

When a district wide threat occurs, an alternate site (s) will be used as determined by emergency procedures.
