

## WEB PAGES

The school district encourages the publication of web pages to foster creativity and communication and to provide students a place to demonstrate what they have learned. All web pages must comply with district web page guidelines.

Failure to comply with this policy and applicable administrative regulations will result in discipline, including suspension of district Internet privileges and/or referral to law enforcement, if appropriate.

### District Web Site

The district's web site provides a resource for obtaining information about the district and for informing patrons about classroom activities and board policies. Information concerning the time, date, place, and agenda for the district's board meetings will also be posted on the district's web site. Requests for publication of information on the district web site should be directed to the district [webmaster]. District administrators (transportation supervisor, food service director, business manager, etc.) may publish web pages as part of the district's web site. Personal information, not related to education, will not be permitted.

State law requires specific items be included on the school district's website as follows:

1. The time, date, place, and agenda of all regularly scheduled meetings of the board of education;
2. When reasonably possible, the date, time, place and agenda of any special or emergency meetings of the board of education;
3. The names of members of the board of education;
4. At least thirty (30) days after the approval for a vote on a bond or other evidence of indebtedness to be issued by the school district, the following information shall be published in accordance with law:
  - a. A description of the project or assets that will be acquired, improved or repaired with the proceeds from the issuance of the bonds;
  - b. A description of any unpaid or unfinished bond approved by the voters preceding the date of the vote on the bonds to be issued; and
  - c. A detailed description of the use of the previous bond proceeds. If the bond proceeds were utilized to acquire or improve real property, the description shall include a physical address using a street number or some other method by which the location of the property can be identified.

### (OPTIONAL) Staff Web Pages

Staff may create web pages to use in class activities or to provide a resource for other staff members. Staff web pages must reflect the educational goals and objectives of the district.

Staff members linking outside sites to the district server are responsible for checking all material and links prior to submission.

### (OPTIONAL) Individual Student Web Pages

Students may, with staff sponsorship, create web pages for publication on the district's web site that are primarily academic, educational, and research oriented.

Student work may be published, with parent permission, only if related to a class project or other school activity. Such work shall not reveal personally identifiable information or prohibited directory information.

Student-created web pages reflect the individual and do not represent the district. Concerns about the content of any page created by a student should be directed to the building principal.

**WEB PAGES (Con't)**

Student web pages may be removed at the end of the school year unless special arrangements are made.

(OPTIONAL) Clubs and Organizations

Web pages published by clubs and organizations may provide information about extracurricular and other school-authorized activities, as well as general information relating to the district.

(OPTIONAL) Others

The district may allow other organizations, e.g., parent-teacher groups, booster clubs, etc., to publish web pages.
